CODUINO
The Arduino competition

SUBMITTING YOUR WORK

➢ Develop the solution for the given problem from the provided question set. Your solution may include circuit diagram and Arduino code.

➢ Combine the circuit diagram and code into a single **PDF** format. Rename the file to the question title. Solution for each question must be made in separate pdf files.

➢ Upload the PDF to the corresponding slot provided in the google form. The link for the submission will the update in the WhatsApp group.

➢ Use the same mail id given during the registration form while submission.

➢ Align and optimize your code as necessary. Your ideas and logic will be considered. The code shall occupy **60%** of the score assigned to that question.

➢ Provide a clean and clear circuit diagram. Your ideas and design will be considered. The circuit diagram shall occupy **40%** of the score assigned to that question

➢ Remember to submit **only** the original work done by you. You may *submit an un-attended question again* in the form. If multiple submissions are found for the *same question, the first submission will be considered.*
